Schedule	1
Assessment dates	1
Material release policy	2

Schedule

Technologies for Artificial Intelligence — Università degli Studi dell'Aquila First-year MSc in Computer Science, autumn 2026.

Ten lessons of three hours, every Friday from 25 September to 27 November 2026. Total: **30 hours**.

#	Date	Lesson	Materials
1	Fri 25 Sep 2026	Introduction and the machine learning workflow	01_introduction_and_workflow
2	Fri 2 Oct 2026	Data: exploration and preparation	02_data_exploration_and_preparation
3	Fri 9 Oct 2026	Regression	03_regression
4	Fri 16 Oct 2026	Classification and evaluation metrics	04_classification_and_metrics
5	Fri 23 Oct 2026	Experimental methodology and model selection	05_experimental_methodology
6	Fri 30 Oct 2026	k-NN, Naive Bayes and support vector machines	06_knn_naive_bayes_svm
7	Fri 6 Nov 2026	Trees and ensembles	07_trees_and_ensembles
8	Fri 13 Nov 2026	Unsupervised learning	08_unsupervised_learning
9	Fri 20 Nov 2026	Neural networks	09_neural_networks
10	Fri 27 Nov 2026	Convolutional networks and course synthesis	10_convolutional_networks

Assessment dates

Milestone	Date
Project brief presented	Lesson 1 — 25 September
Project topic confirmed	Lesson 4 — 16 October
Weekly exercises	Set each Friday, due 09:00 the following Friday, at the start of the next lesson. Exercise 10 has no lesson after it and is due 23:59 on Friday 4 December.
Peer review of project drafts	Week of 30 November
Project submission	To be confirmed with the degree programme

Milestone	Date
Written exam	To be confirmed with the degree programme

Material release policy

Slides and notebooks are published **on the day of the lesson**. The handout, which carries the full mathematical treatment, follows **by the Monday after**, since it is study material rather than lecture support.

Students receive new material with `git pull`. The Docker image is only republished when the environment's dependencies change — see [Setup/Docker_Quickstart.md](#).
